The faculty and staff of the ASLIS and the University of Northern Colorado bring expertise and many years of experience, passion, and dedication to supporting students working towards educational goals. While students can grow substantially from that platform of support, individual success or failure in achieving the outcomes of your specific program is ultimately your own responsibility. Communication is especially important within any distance education program. If questions or concerns arise or if something outside your control is interfering with your education, please contact your instructor, advisor or the administrative office.

Course Overview

Purpose

The purpose of this course is to introduce major theories of first language acquisition (L1) and second language acquisition (L2) in order to draw parallels between the similarities and differences in first language and second language acquisition theories and methodologies that can be applied to the teaching American Sign Language (ASL) as a foreign/modern language. Topics covered in this course include L1 and L2 theories of acquisition, including but not limited to, biological and cognitive, socio-cultural, input and interaction, interlanguage, language transfer and interference. This course will also address factors that influence language acquisition and learning, such as cognitive style, attitude/motivation, personality, age, setting and classroom environment, code switching and learner strategies. Resources and current L1 and L2 acquisition research will be reviewed as it applies to acquisition and learning of ASL.

Impact

In the past two decades, there has been an exponential growth in foreign/modern language program offerings for American Sign Language (ASL) in K-12 and postsecondary programs. Accompanying this shift in ideology regarding ASL, and characterized by the linguistic, educational, and political recognition of ASL as a language, has been an increased public interest in ASL as a second, foreign, or world language. For this reason, the demand for trained and qualified ASL teachers is increasing, as is the need for ASL teacher-preparation programs. Public higher education institutions are necessarily poised to offer an option of ASL teacher training to prepare for the increasing demand for ASL teachers.

Objectives

By the end of this course, you will be able to:

1. Explain the major theories of language acquisition
   a. First language acquisition (L1)
   b. Second language acquisition (L2)
   c. Similarities and differences
      i. Biological/cognitive
      ii. Socio-cultural
      iii. Input hypothesis
      iv. Interlanguage, language transfer and interference
2. Identify and describe the similarities and differences between L1 and L2 acquisition
   a. Child development stages and learning ASL and an L1
b. Adult learning of ASL and an L2

3. Demonstrate an understanding of L1 and L2 acquisition influences upon language teaching
   a. Cognitive style
   b. Attitude/motivation
   c. Personality
   d. Age
   e. Setting and classroom environment
   f. Code switching
   g. Learner strategies

4. Employ different teaching methods for L1 and L2 classes
   a. Apply knowledge base to classroom teaching of ASL as an L2
Plagiarism Policy

**Policy on Plagiarism:** *Plagiarism is the act of appropriating the written, artistic, or musical composition of another, or portions thereof; or the ideas, language, or symbols of same and passing them off as the product of one's own mind.* Plagiarism includes not only the exact duplication of another's work but also the lifting of a substantial or essential portion thereof (UNC definition). Regarding written work in particular, direct quotations, statements which are a result of paraphrasing or summarizing the work of another, and other information which is not considered common knowledge must be cited or acknowledged, usually in the form of a footnote. Quotation marks or a proper form of indentation shall be used to indicate all direct quotes. Regarding class projects, you are not to use as your entire presentation the completed works of faculty members, fully imported websites, or any other body of work in which you are not the author. Of course, with proper referencing, you can import portions of such works and websites to enhance and illustrate your presentation, and you can provide references to these other works for students who have an interest in pursuing a topic further. For further information, go to the following website: [http://www.unco.edu/dos/honor_code/defining_plagiarism.html](http://www.unco.edu/dos/honor_code/defining_plagiarism.html)

Inclusivity Statement

The College of Education and Behavioral Sciences (CEBS) supports an inclusive learning environment where diversity and individual differences are understood, respected, appreciated and recognized as a source of strength. We expect that students, faculty and staff within CEBS will be accepting of differences and demonstrate diligence in understanding how other peoples’ perspectives, behaviors, and world views may be different from their own. Furthermore, as stated by UNC, “The University will not engage in unlawful discrimination in...educational services against any person because of race, religion, gender, age, national origin, disability, or veteran status. It is the University’s policy to prohibit discrimination in...educational services on the basis of sexual orientation or political affiliation.” (See [http://www.unco.edu/hr/AAEO_TitleIX.htm](http://www.unco.edu/hr/AAEO_TitleIX.htm)).

Please visit the CEBS Diversity and Equity Committee website for more information on our commitment to diversity ([http://www.unco.edu/cebs/diversity](http://www.unco.edu/cebs/diversity)).

Students with Disabilities

**Accommodations Statement:**

Students who believe that they may need accommodations in this class are encouraged to contact the Disability Support Services, Voice/TTY (970) 351-2289, or fax (970) 351-4166, or visit [www.unco.edu/dss](http://www.unco.edu/dss) as soon as possible to ensure that accommodations are implemented in a timely fashion.
Grading Scale

The points for all of the assignments in the TASL courses will add up to 100 and letter grades are assigned as follows:

- **A** 93-100 Superior achievement of objectives
- **B** 85-92 Above average achievement of objectives
- **C** 77-84 Average achievement of objectives
- Below 77 Unacceptable level of achievement of objectives and considered failing.

**Reminder:** You must maintain at least a “B” average (3.0 GPA) to meet graduation requirements.

Late Assignment Policy

Late assignments will be accepted and graded for up to 72 hours after the due date and time but the final grade will be dropped one letter. Late assignments submitted after the 72 hours that have not been approved in advance with the respective Section Facilitator will NOT be graded and students will receive a zero as the assignment grade.

Extensions for assignment due date and time must be approved in advance with the respective Section Facilitator based on the following criteria:

- The extension is requested at least 24 hours in advance of the due date and time.
- An extension is requested no more than once during any given semester.
- **No late work will be accepted in the last three days of this course.**

Exceptions to the above criteria will only be considered based on documented evidence of special circumstances—such as illness, hospitalization or death of a family member.
## Required Text/Readings

### Textbooks

**Required**

   There are two ways to sign up:
   - 1. You will be invited to a link
   - 2. Sign up yourself @ [https://goreact.com/#/](https://goreact.com/#/)

**Recommended**

### Additional Materials from Prior Courses

- National Standards
- All previous coursework

### Readings (eReserves)

Course Preview

The content introduced in this course provides the student with the knowledge and skills to understand the theories of first language and second language acquisition as these theories apply to learning for teaching L1 and L2 in ASL classes. This course will introduce major theories of language acquisition, compare similarities and differences between first (L1) and second (L2) language acquisition and examine factors that influence language acquisition, learning and attainment.

Lesson Outlines

Lesson 1 – Language Learning in Early Childhood
- Describing first language (L1) and second language (L2) acquisition
- Identifying developmental milestones
- Evaluating similarities and differences

Lesson 2 – Defining Language and the Relationship between L1 and L2 Acquisition
- Defining language
- Describing the relationship between L1 and L2 acquisition

Lesson 3 – Second Language Learning, Learner Characteristics and Learning Conditions and Learning Theories
- Similarities and difference between L1 and L2 acquisition
- Learner characteristics and the impact upon learning

Lesson 4 – Comparing and Contrasting L1 and L2 Acquisition
- Identifying patterns in L1 and L2 acquisition
- Contrastive analysis

Lesson 5 – Grammatical Processing in American Sign Language – Age of Acquisition as an L1 and the Impact on Syntactic Structure
- Age of acquisition of ASL
- Syntactic structure and how L1 influences L2 use

Lesson 6 – Individual Differences in Second Language Acquisition
- Research on learner characteristics
- Age and L2 instruction

Lesson 7 – Assessing Individual Differences in Second Language Acquisition
- Evaluating ASL acquisition and differences in the classroom
- The situation is which learning takes place

Lesson 8 – Factors that Influence Individual Differences in L2 Acquisition
- Motivational and Attitudinal Orientations in Learning ASL
- Interlanguage and individual differences in learner success
Lesson 9 – Explaining L2 Learning

- Methodological perspectives
- Learner characteristics and application of difference teaching methods

Lesson 10 – Observing Learning and Teaching in the L2 Classroom

- Employing different teaching methods/curricula for L1 and L2 classes in ASL
- Reporting on observations of teaching methods

Lesson 11 – Second Language Learning in the Classroom

- Review of ASL Teacher-Preparation Programs in the U.S. and international perspectives
- Native language, target language and the learning of ASL Vocabulary

Lesson 12 – Popular Ideas about Language Learning Revisited

- Reflecting of popular ideas about how languages are learned
- Learning from research

Lesson 13 – The Need for Research Based Materials in Signed Language Education

- National Standards
- Call for improvement: The Need for Research-Based Materials in American Sign Language Education

Lesson 14 – Mock ASL Lessons

- Application of course content
- Instructional plan

Lesson 15 – Final Exam
# Course Roadmap

Use this as your “map” while traveling on your distance learning journey. Use the last column to check off each item as you complete it. Icons in the roadmap are used to indicate activities/assignments worth points for grading. Dates before or next to any activity indicate specific dates for that item. Generally we will follow the assignment model of: 1) Read/View; 2) Create/Remember; 3) Understand/Apply; 4) Analyze/Evaluate. All work is due on Sunday night by 11:59. The dates posted daily are a suggested progression to allow you to stay ahead of your work. Most of you will work at different paces; however, keep in mind that all work in due Sunday night.

| 10/29       | 10.4          | **Application Assignment #3a**: Develop/adapt chart for observation based on those presented in *How Languages are Learned*, Chapter 5. Get feedback from 2-3 classmates on the quality of your observation tool, revise the tool and be prepared to use the instrument for an observation of an ASL or foreign language setting. Submit your original and revised charts to the appropriate assignment tool. |
| 10/29       |               | **Application Assignment 3b**: Observation Activity – Due 10/29                                                                                                                                                                                                                                                                                        |
| 10/30       | 10.6          | **Online Discussion #6**: Post answers and discuss with classmates:  
1. Do you think you may have a preference for using a particular type of corrective feedback in your teaching?  
2. For example, would you consider yourself to be a “recaster” or a “prompter” or do you think you would use a range of different feedback types?  
3. What could you do to find out?”  
**WORK ON PORTFOLIO**                                                                                                                                                                                                                     |

## Assignment Overview

<table>
<thead>
<tr>
<th>Assignments</th>
<th>Description</th>
<th>Pts.</th>
<th>Due</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Assignment 1</strong></td>
<td><strong>Online Discussions</strong>: Generate 6 original responses to study questions relating to the course readings and activities. Respond to 2 or more postings for each assignment with online peers. Responses should be reflective and relevant. Additional postings are encouraged to foster the greatest degree of engagement in the learning environment and to encourage collaborative thought in learning.</td>
<td>15</td>
<td>Ongoing</td>
</tr>
<tr>
<td><strong>Assignment 2</strong></td>
<td><strong>Application Activities</strong>: Apply the concepts learned in your textbook readings, online material and in your discussions to 4 applied activities with the goal of operationalizing L1 and L2 acquisition concepts. Each application activity is worth 2.5 points.</td>
<td>10</td>
<td>Ongoing</td>
</tr>
<tr>
<td><strong>Assignment 3</strong></td>
<td><strong>Supplemental Activities</strong>: Submit 4 supplemental activities related to your textbook readings. Each activity is designed to provide you with practice in determining developmental levels of acquisition, defining the learner characteristics of first and second language learners, and identifying the theoretical orientations underlying teaching methods. Each supplemental activity is worth 2.5 points.</td>
<td>10</td>
<td>Ongoing</td>
</tr>
<tr>
<td><strong>Assignment 4</strong></td>
<td><strong>Video Blogs (VLOGS)</strong>: Submit 4 VLOGs to GoReact, no more than 5 minutes each, demonstrating an academic register in ASL and addressing the topics posed for discussion. Points will be deducted for lack of topic development, lack of organization, use of informal register or length of over 5 minutes. Please see associated link for help with “Academic ASL”.</td>
<td>20</td>
<td>8/28; 10/2; 10/16; 11/5</td>
</tr>
<tr>
<td><strong>Assignment 5</strong></td>
<td><strong>Writing Assignments</strong>: Complete 1 article summary (see examples), 2 pages each, 1 comparison/contrast writing assignment, no less than 500 words, and 1 critical analysis writing. The articles writings are to be formatted using APA.</td>
<td>15</td>
<td>9/18; 9/25; 11/10</td>
</tr>
<tr>
<td><strong>Assignment 6</strong></td>
<td><strong>Compile TASL 501 Portfolio</strong>: To showcase some of your outstanding work in TASL 501, you will create an online compilation of your representative and creative work. Instructions and examples from past students will be provided.</td>
<td>10</td>
<td>11/20; 11/28</td>
</tr>
<tr>
<td><strong>Assignment 7</strong></td>
<td><strong>Final Exam</strong>: Complete multiple choice, true/false, and short answer final covering language learning in early childhood, defining language and the relationship between L1 and L2 acquisition, learner characteristics, learner conditions, learning theories, contrastive analysis, syntactic acquisition, methodological perspectives and</td>
<td>20</td>
<td>12/5-12/9</td>
</tr>

</table>

### Course Summary

#### Conclusion

The practice of teaching signed languages as a second language has soared in recent decades and acceptance of signed languages within the scope of foreign language study is widespread; however, much of ASL teaching has occurred from a practitioner’s perspective and not from theoretically based curriculum development and practice in knowledge domains for teaching ASL. Scientific descriptions of first and second language acquisition and linguistic and cultural properties of signed languages have not informed ASL L2 teaching pedagogy or teaching practices. With the description of ASL in linguistic terms introduced by William Stokoe and associates in the 1960s, came a flourishing of sign language research and teaching centers. At the same time, the empirical literature on linguistic and sociolinguistic aspects of signed language acquisition as it relates to studies of L2 pedagogy in the acquisition process and teaching of ASL as a foreign/second language is a relatively new field.

Teachers of ASL as a foreign/second language work across a variety of institutional and community contexts and respond to very diverse learner goals and characteristics. This course has introduced you to relevant discussion on research and practice on language acquisition and factors that influence the learner and the learning context. Formal training in second language learning and teaching pedagogy will not only contribute to the improving the standard of ASL teaching and learning, but also to the internal development of Deaf communities, by raising consciousness on the recognition and advocacy for ASL as a language.

With the development and acceptance of National Standards for K-16 ASL teaching in the United States, this is, indeed, an exciting time for advancing the practice of ASL teachers who possess the requisite knowledge of L1 and L2 acquisition as it applies to the teaching and learning of ASL.

Congratulations! You have made it through TASL 501!

#### Key Points

- A number of relevant major theories of language acquisition as an L1 and L2 exist as do important similarities and differences between those theories that ground learning in a variety of contexts and at various stages in the learning process.
  - First language acquisition follows developmental sequences unless interrupted by factors that affect learning
  - The major theories include, the behaviorist perspective, the innatist perspective and the interactionist/developmental perspective
  - Second language learning characteristics and conditions can be reflected in in samples of language output through contrastive analysis, error analysis and interlanguage output in vocabulary, pragmatics, and phonology.
  - Research on learner characteristics yield information on individual differences in learning. Factors that influence learning include, language learning aptitude,
learning styles, personality, attitudes and motivation, identity and group affiliation, learner beliefs, age and intuitions of grammaticality.

- Second language learning theoretical perspectives have been offered that emphasize the way the mind perceives, retains, organizes, retrieves information and evolves in a larger social context that impacts interacting, noticing, processing and practicing.
  - The behaviorist perspective
  - The innatist perspective
  - The cognitive perspective
- Observing language and teaching in the second language classroom reveals various schemes and methods of feedback.
  - Natural settings
  - Structure-based settings
  - Communicative instructional settings
- Several learner and learning context factors will influence learning of an L1 and L2 and should be employed in the teaching of ASL and a second/foreign language.
  - Cognitive style
  - Attitude/motivation
  - Personality
  - Age
  - Setting and classroom environment
  - Code switching
  - Learner strategies
- The teaching of ASL as a second language is enhanced by a knowledge base of the above concepts as applied to the ASL curriculum and teaching methods used in the classroom. Practitioner knowledge without academic preparation in language learning theory does not advance learning and teaching pedagogy or contribute to improving the standards of ASL teaching and learning or the internal development of Deaf communities and recognition of the complexity and sophistication of American Sign Language.

Portfolio Considerations

As you complete each assignment in this course, take a moment to prepare how you will integrate your materials into your final TASL 501 portfolio that is due at the end of our journey. Your portfolio should include the following:

1. Include at least 5 initial well designed pages for your portfolio with examples of your work and potential additional links to which you will add more information at a later date, i.e., prior to graduation from the TASL MA program.
2. Include your academic preparation and your video introduction in an “All About Me” page
3. Include a Teaching Philosophy page with one of your VLOG reflections from this class.
4. Include your Mock Teaching as a Sample Lesson Page
5. Include any other representative work from this class that follows a theme for teaching ASL that sets you apart from others. For example, in your e-portfolio you want to be depicted as a better candidate than another person because of your academic preparation or insights into SLA for L1 and L2 learners of ASL. What work do you have from this course to show that you can include to support that?
