EDF 797: Doctoral Proposal Research
Summer 2016
1-4 credits

Professor Information
Christy McConnell, PhD
Summer Office Hours: By appointment
McKee Hall 285
Email: Christine.moroye@unco.edu
Phone: 970-351-2438

Course Catalogue Description
Candidate must earn a minimum of 4 credit hours for doctoral proposal research in partial fulfillment of the requirements for the degree.

Credits
1-4

Outline of Course Topics
• Review of Principals of Research Design
• Development of Research Proposal
• Choosing a Research Methodology
• Dissertation Proposal Outline Expectations

Course Objectives for Summer 2016
• Students will draft their dissertation research proposal in concert with the professor and the research advisor.
• Students will begin IRB approvals where appropriate.
**Professional Standards Addressed in this Course**

*The American Educational Studies Association (AESA) Standards:*

**Standard I**: Social Foundations of Education refers to a field of educational study that derives its character and methods from a number of academic disciplines, combinations of disciplines, and area studies, including: history, philosophy, sociology, anthropology, religion, political science, economics, cultural studies, gender studies, LGBTQ studies, comparative and international education, educational studies, educational policy studies, as well as transdisciplinary and interdisciplinary approaches. The purpose of Social Foundations of Education study is to bring these disciplinary, interdisciplinary, and transdisciplinary resources to bear in developing interpretive, normative, and critical perspectives on education both inside and outside of schools. (I.1, I.2, I.3, I.4, I.5, I.6, I.7)

**Standard II**: Professional preparation leading to initial teacher certification and/or licensure shall include studies (at least one course, preferably two or more) in the foundation of education as described in Standard I. The **interpretive perspective** assists students in examining and explaining education within differing contexts, the meaning, intent, and effect of educational institutions. The **normative perspective** assists students in examining and explaining education in light of value orientations. The **critical perspective** assists students in examining and explaining education in light of its origins, major influences, and consequences.

**Bases for Course Grade**

<table>

**Method of Evaluation**

*S/U*

**Required Texts**

None. Reading lists are determined by research project.

**Course Structure**

This course is based on individual and independent work toward the dissertation proposal completion.
Policy Statements

- **Accommodations Statement**
  Students who believe that they may need accommodations in this class are encouraged to contact the Disability Support Services, voice/TTY (970) 351-2289, or fax (970) 351-4166, or visit **www.unco.edu/dss** as soon as possible to ensure that accommodations are implemented in a timely fashion.

- **Inclusivity Statement**
  The College of Education and Behavioral Sciences (CEBS) supports an inclusive learning environment where diversity and individual differences are understood, respected, appreciated, and recognized as a source of strength. We expect that students, faculty, administrators and staff within CEBS will respect differences and demonstrate diligence in understanding how other peoples’ perspectives, behaviors, and worldviews may be different from their own.

- **Academic contact hour policy**: The reasonable interpretation of this policy is that for every credit hour, a student should expect, on average, to do a minimum of two additional hours of work per week (e.g., preparation, homework, studying).

- **School of Teacher Education Charter**: 8.1 **Student expectations**: Students have a responsibility for their own learning, which includes knowing course expectations and being prepared for class. Students enrolled in all STE courses are expected to:
  - demonstrate professional integrity in classes and field experience settings;
  - complete at least two hours of outside work per week per credit hour;
  - know and follow the UNC Student Handbook, and the Honor Code;
  - utilize campus resources (i.e., library, Writer’s Lab, Math Lab, Student Technology Center, etc.) as needed or required;
  - recognize that the faculty member is the primary resource for questions regarding the course requirements, student expectations, and evaluation;
  - and adhere to APA style, citation, ethical principles for research and writing.

- **Classroom Management Statement**: Membership in the academic community places a special obligation on all members to preserve an atmosphere conducive to a safe and positive learning environment. Part of that obligation implies the responsibility of each member of the UNC community to maintain an environment in which the behavior of any individual is not disruptive.

  It is the responsibility of each student to behave in a manner that does not interrupt nor disrupt the delivery of education by faculty members or receipt of education by students, within or outside the classroom. The determination of whether such interruption/disruption has occurred must be made by the faculty member at the time the behavior occurs. It becomes the responsibility of the individual faculty member to maintain and enforce the standards of behavior acceptable to preserving an atmosphere for teaching and learning in accordance with University regulations and the course syllabus.
At minimum, a student will be warned if his/her behavior is considered by the faculty member to be disruptive. Serious disruptions, as determined by the faculty member, may result in immediate removal of the student from the instructional environment. Significant and/or continued violations of this policy may result in an administrative withdrawal of the student from the class.

Additional responses by the faculty member to disruptive behavior may include a range of actions from discussing the behavior with the student to referral to the appropriate academic unit and/or the Office of Student Life for administrative review in an effort to implement corrective action up to and including suspension or expulsion from the University.

➢ **Academic Integrity:** The University takes an extremely serious view of violations of academic integrity. As members of the academic community, UNC’s administration, faculty, staff and students are dedicated to promoting an atmosphere of honesty and are committed to maintaining the academic integrity essential to the education process.

Inherent in this commitment is the belief that academic dishonesty in all forms violates the basic principles of integrity and impedes learning. Students are therefore responsible for conducting themselves in an academically honest manner.

Instructors are encouraged to check written assignments for plagiarism. All instances of plagiarism/forgery including graduate course incidents are to be reported with evidence to STE Director, Director of the School where the student’s major is housed, CEBS Dean, and the Dean of Students. Incidents are also to be reported to the Dean of Graduate School.

Although the faculty member retains the right to assign penalty for the initial offense, the minimal penalty for plagiarism and academic dishonesty is no credit for the assignment. Individual students and faculty members are responsible for identifying instances of academic dishonesty. Faculty members then recommend penalties to the department chair or college dean in keeping with the severity of the violation.

➢ **Honor Code:** All members of the University of Northern Colorado community are entrusted with the responsibility to uphold and promote five fundamental values: Honesty, Trust, Respect, Fairness, and Responsibility. These core elements foster an atmosphere, inside and outside of the classroom, which serves as a foundation and guides the UNC community's academic, professional, and personal growth. Endorsement of these core elements by students, faculty, staff, administration, and trustees strengthens the integrity and value of our academic climate.
