Course Description

*Secondary Student Teaching*, Prerequisites: EDFE 130 and completion of all content and PTEP coursework. This has to be the last class in your program, unless special permission is given to complete a specific course after or during student teaching. A 16 week experience in content area teaching in middle or high school where the student teacher demonstrates effective teaching from a culmination of prior knowledge, skills and behaviors. S/U graded.

This is a course designed to provide a program of experiential learning activities in the teacher candidate’s content area within an approved school setting and under the supervision and coordination of UNC faculty and school personnel. Emphasis is on the development of competencies in the areas of planning, instructional methods and assessment, classroom management and organization, content knowledge, literacy, individualization of instruction, diversity, human relations and communication, professionalism, and the use of materials and resources.

Student Teaching course activities and field experiences include 16 weeks of supervised student teaching and 15 hours of related seminars (student teaching seminars and professional development seminars). A full student teaching assignment is defined as a minimum of 16 weeks in a school setting from 8 a.m. to 4 p.m. or a similar amount of time that conforms to the school schedule. During this 16 week period, the student teacher gradually assumes full responsibility for classroom instruction and other school related professional roles.

**Student Teacher Expectations**

1. **Start your experience when your host teacher begins the semester.**
2. **Print a copy of this handbook and give it to your mentor teacher. Read it thoroughly, marking specific due dates and information.**
3. Plan lessons on a daily/weekly basis and submit the plans to the mentor teacher for review and recommendations prior to teaching the lesson. Lesson plans **must** be made available to the UNC Supervisor on each visit.
4. Conform to and comply with the host school and district’s rules, policies, and standards of professional behavior.
5. Participate in all of the activities expected of the regular classroom teacher inclusive of arriving and leaving at appropriate times. (Call the school and the cooperating teacher in the event of illness; missed time must be made up)
6. **Attend UNC Student Teaching Seminars (2) and professional development seminars sponsored by your school, school district, professional organization, etc. totaling 15 hours.**
7. Gradually assume full teaching and related responsibilities (as agreed upon by cooperating teacher and UNC Supervisor and in accordance with licensure guidelines)
8. Assume other professional roles in the school (particularly those roles expected of professional educators)
Development Plan

- One of the most commonly asked questions during the student teaching experience has to do with the timing of the teacher candidate’s teaching responsibilities. The teacher candidate should assume and release teaching responsibilities in a planned, gradual manner. The Student Teaching Development Plan is designed as a “road map” for the teacher candidate to follow during his/her student teaching practicum. It is a specific, week-by-week timeline that indicates the teaching duties and other professional duties to be assumed by the teacher candidate during student teaching experience.
- The plan should be developed jointly by the teacher candidate and the cooperating teacher during the first two weeks of the student teaching assignment (or before).
- The plan should be submitted to the UNC Supervisor during the first visit (or before).
- The following suggested schedule is recommended by the Secondary PTEP faculty. Each of the areas may be compressed or extended according to the readiness of the particular teacher candidate.

Week 1: Familiarize self with classroom and students; plan with cooperating teacher(s); observe management strategies; examine texts and materials; observe/discuss lesson plans; assume some procedural tasks in the classroom; develop a Student Teaching Development Plan.
Week 2: Continue to plan with cooperating teacher(s); prepare lesson plans; work with individuals and small groups.
Week 3: Continue to plan and assume some classroom responsibilities, inclusive of teaching planned lessons.
Week 4-5: Continue to add teaching responsibilities until full-time teaching responsibilities are reached.
Weeks 6-13: Full-time teaching responsibilities.
Weeks 14-16: Begin to gradually release responsibilities back to cooperating teacher(s).

Seminar Log

Your UNC seminars count for a portion of scheduled hours 4-5. Your other hours can be obtained by attending special meetings held at your school or under the direction of your school or district (i.e. IEP meetings, Professional Development Trainings, etc.). Other acceptable meetings include content or curriculum-based conferences or other educational events. It does not include things like attending/working sports events (although those are very valuable and important experiences). You need to attend 3 separate events as part of your professional development hours. That means, if you attend a workshop that lasts 8 hours, you can include it on your log as 8 hours; however, you will still have 2 more events needed. This also means that many of you will have more than the required 15 hours of UNC seminars and professional development seminars. We are also holding our STEP 161, 262, 363 seminars on campus as always. If you are interested in attending any of those that you did not get to attend while you were in phases 1-3 you are welcome (though not required). Other special events held on campus that support your teaching may also be used.

- All UNC University Supervisors are required to have a school-based meeting at the beginning of the semester with each of the cooperating teachers with whom they have been assigned to work. If there is more than one cooperating teacher in the same school, a group meeting would be most appropriate. The purpose of the meeting is to review: cooperating teacher’s, candidate’s, and supervisor’s roles and responsibilities for the semester; packets with evaluation rubrics and forms; online handbooks, guidelines for addressing candidate concerns/dispositions; and mentoring/coaching strategies.
- Maintain open communication and good personal relationships with the student, the cooperating teacher, and the principal/administrative staff.
- Clarify the University’s expectations for the roles of the student teacher, the cooperating teacher, and the principal.
- Complete all visits (initial visit, four observations, and a final visit)
- Discuss the student teacher’s experience with the building principal prior to the end of the student teaching experience.
- Mileage reimbursement policy: For supervision trips, please chose as your starting point either Greeley or your home address, whichever is the closest to the site. All trips over 130 miles roundtrip must be approved in advance by STE Director. Please try to combine trips whenever possible. Submit reimbursement requests online by the end of each month at http://www.unco.edu/teach/faculty/index.html#fieldSupervisors

**Status of the Student Teacher in Colorado**

Student Teachers may NOT be used as substitute teachers during their student teaching experience without express approval of the Director of the School of Teacher Education and consent of the candidate’s program coordinator.

*Colorado law states, as part of the "Cooperative Teacher Education Act "22-62-105. Authority and status of student teachers.*

(1) Any student teacher, during the time that such student is assigned to a field experience within a public school, shall be deemed to be a public employee of the school district within the meaning of the "Colorado Governmental Immunity Act", article 10 of title 24, C.R.S. The duties and responsibilities of the student teacher shall be determined by mutual agreement between the school district and the authorized representative of the college.

(2) The student teacher, during his practice teaching in a school, shall be deemed an employee of the school district for the purpose of workers' compensation and liability insurance as provided for other school employees.

**Policy on payments to student teachers**

Sometimes, cooperating school districts express a desire to employ the student teacher during the student teaching experience. However, student teachers are not permitted to accept payment for a teaching assignment from a district during the time period designated as the “student teaching experience” unless prior approval for extraordinary circumstances has been given by the Director of the School of Teacher Education with consent of the Coordinator of the Secondary PTEP. In these rare occasions, student teachers still need intensive mentoring and supervision, and cannot be simply used as substitute teachers (see above).
