Faculty Professor & Clinical Supervisor: Danielle M. Kahlo, Ph.D.
Office: Denver-Lowry Campus Room 233, (970) 351.1021, danielle.kahlo@unco.edu

COURSE DESCRIPTION:
Students will receive supervised experiential training in counseling with couples and families. They will develop diagnostic and therapeutic skills in systemic approaches. Multicultural awareness, sensitivity and competence in case conceptualization and treatment approaches will be discussed. S/U graded.

PREREQUISITE:
APCE 612 and APCE 669; APCE 619

NOTE TO INSTRUCTOR: This course is designed to meet the Council for the Accreditation of Counseling and Related Education Programs (CACREP) 2016 Standards. To meet accreditation standards for counselor education programs, students who successfully complete the course must master the following knowledge and skill outcomes. Please include the following knowledge and skill outcomes and course content items in your syllabus.

KNOWLEDGE AND SKILL OUTCOMES: Upon successful completion of this course students will:

1. Students are covered by individual professional counseling liability insurance policies while enrolled in practicum and internship (CACREP Standard: 3.A). Assessed via documentation required to be released to enroll in the course; current proof of liability insurance to be kept by student in their internship file.

2. Supervision of practicum and internship students includes program-appropriate audio/video recordings and/or live supervision of students’ interactions with clients (CACREP Standard: 3.B). Assessed via site agreement to adherence with this standard and site supervisor confirmation of performance of this activity.

3. Formative and summative evaluations of the student’s counseling performance and ability to integrate and apply knowledge are conducted as part of the student’s practicum and internship (CACREP Standard: 3.C). Assessed via documentation of mid-term and final evaluations from on-site clinical supervisor, and written documentation of evaluation of case conceptualization and treatment plan in student’s file.

4. Students have the opportunity to become familiar with a variety of professional activities and resources, including technological resources, during their practicum and internship
5. Students complete supervised counseling practicum experiences that total a minimum of 100 clock hours over a full academic term that is a minimum of 10 weeks (CACREP Standard: 3.F). Assessed via pre-requisites for enrollment in this course (APCE 619).

6. Practicum students complete at least 40 clock hours of direct service with actual clients that contributes to the development of counseling skills (CACREP Standard: 3.G). Assessed via pre-requisites for enrollment in this course (APCE 619).

7. Practicum students have weekly interaction with supervisors that averages one hour per week of individual and/or triadic supervision throughout the practicum by (1) a counselor education program faculty member, (2) a student supervisor who is under the supervision of a counselor education program faculty member, or (3) a site supervisor who is working in consultation on a regular schedule with a counselor education program faculty member in accordance with the supervision agreement (CACREP Standard: 3.H). Assessed via documented logs of supervision activity signed by the on-site clinical supervisor, and class attendance records.

8. Practicum students participate in an average of 1 1/2 hours per week of group supervision on a regular schedule throughout the practicum. Group supervision must be provided by a counselor education program faculty member or a student supervisor who is under the supervision of a counselor education program faculty member (CACREP Standard: 3.I). Assessed via documented logs of supervision activity signed by the on-site clinical supervisor, and class attendance records.

9. Counselor education program faculty members serving as individual/triadic or group practicum/internship supervisors for students in entry-level programs have (1) relevant experience, (2) professional credentials, and (3) counseling supervision training and experience (CACREP Standard: 3.N). Assessed via adherence with formal training program requirements or documentation of having this experience/skills/credentials.

10. Students serving as individual/triadic or group practicum/internship supervisors for students in entry-level programs must (1) have completed CACREP entry-level counseling degree requirements, (2) have completed or are receiving preparation in counseling supervision, and (3) be under supervision from counselor education program faculty (CACREP Standard: 3.O). Assessed via adherence with adherence to formal training program requirements/documentation of supervision.

11. Site supervisors have (1) a minimum of a master’s degree, preferably in counseling, or a related profession; (2) relevant certifications and/or licenses; (3) a minimum of two years of pertinent professional experience in the specialty area in which the student is enrolled; (4) knowledge of the program’s expectations, requirements, and evaluation procedures for students; and (5) relevant training in counseling supervision (CACREP Standard: 3.P).
Assessed via site supervisor resume (presented with documentation required to release
the student to enroll in the course).

12. Orientation, consultation, and professional development opportunities are provided by
counselor education program faculty to site supervisors (CACREP Standard: 3.Q). Assessed
via UNC course credit offered to supervisors each semester, and contact information of
internship coordinator provided to site supervisors for individual consultation as needed.

13. Written supervision agreements define the roles and responsibilities of the faculty
supervisor, site supervisor, and student during practicum and internship. When
individual/triadic practicum supervision is conducted by a site supervisor in consultation
with counselor education program faculty, the supervision agreement must detail the
format and frequency of consultation to monitor student learning (CACREP Standard: 3.R).
Assessed via “Attachment A” (contract between student, program and site).

14. When individual/triadic supervision is provided by the counselor education program
faculty or a student under supervision, practicum and internship courses should not exceed
a 1:6 faculty:student ratio. This is equivalent to the teaching of one 3-semester credit hour
or equivalent quarter hour course of a faculty member’s teaching load assignment (CACREP

15. When individual/triadic supervision is provided solely by a site supervisor, and the
counselor education program faculty or student under supervision only provides group
supervision, practicum and internship courses should not exceed a 1:12 faculty:student
ratio. This is equivalent to the teaching of one 3-semester credit hour or equivalent quarter
credit hour course of a faculty member’s teaching load assignment (CACREP Standard: 3.T).
Assessed via course enrollment.

16. Group supervision of practicum and internship students should not exceed a 1:12

17. When counselor education program faculty provide supervision of students providing
supervision, a 1:6 faculty: student ratio should not be exceeded. This is equivalent to the
teaching of one 3-semester or equivalent quarter credit hours of a faculty member’s

Assessed via documentation in student learning outcomes, informal and formal case
presentations/student check-ins, and formal site visits/evaluation/reviews.

19. The role of counseling supervision in the profession (CACREP Standard: 2.F.1.m).
Assessed via documentation in student learning outcomes, informal and formal case
presentations/student check-ins, use of the current literature and evidence-based practices
(including multicultural and ethical guidelines and trauma-informed practices) in the
submitted written case conceptualization and treatment plan, as well as professional
membership in and adherence to guidelines/standards of professional organizations (i.e., ACA) and formal site visits/evaluation/reviews.

20. Ethical and culturally relevant strategies for establishing and maintaining in-person and technology-assisted relationships (CACREP Standard: 2.F.5.d). Assessed via documentation in student learning outcomes, informal and formal case presentations in group supervision, formal site evaluation (midterm and final) reviews, and use of the current literature and evidence-based practices (including multicultural and ethical guidelines and trauma-informed practices) in the submitted written case conceptualization and treatment plan.

21. Counselor characteristics and behaviors that influence the counseling process (CACREP Standard: 2.F.5.f). Assessed via documentation in student learning outcomes, informal and formal case presentations in group supervision, formal site evaluation (midterm and final) reviews, and use of the current literature and evidence-based practices (including multicultural and ethical guidelines and trauma-informed practices) in the submitted written case conceptualization and treatment plan.

22. Essential interviewing, counseling, and case conceptualization skills (CACREP Standard: 2.F.5.g). Assessed via documentation in student learning outcomes, informal and formal case presentations in group supervision, formal site evaluation (midterm and final) reviews, and use of the current literature and evidence-based practices (including multicultural and ethical guidelines and trauma-informed practices) in the submitted written case conceptualization and treatment plan.

24. Family assessments, including diagnostic interviews, genograms, family mapping, mental diagnostic status examinations, symptom inventories, and psychoeducational and personality assessments (CACREP MCFC Standard: 5.F.2.c). Assessed via documentation in student learning outcomes, informal and formal case presentations in group supervision, formal site evaluation (midterm and final) reviews, and written case conceptualization and treatment plan.

25. Diagnostic process, including differential diagnosis and the use of current diagnostic classification systems, including the Diagnostic and Statistical Manual of Mental Disorders (DSM) and the International Classification of Diseases (ICD) (CACREP MCFC Standard: 5.F.2.d). Assessed via documentation in student learning outcomes, informal and formal case presentations in group supervision, formal site evaluation (midterm and final) reviews, and written case conceptualization and treatment plan.
26. Aging and intergenerational influences and related family concerns (CACREP MCFC Standard: 5.F.2.f). Assessed via documentation in student learning outcomes, informal and formal case presentations in group supervision, formal site evaluation (midterm and final) reviews, and use written case conceptualization and treatment plan.

27. Impact of crisis and trauma on marriages, couples, and families (CACREP MCFC Standard: 5.F.2.g). Assessed via documentation in student learning outcomes, informal and formal case presentations in group supervision, formal site evaluation (midterm and final) reviews, and use of the current literature and evidence-based practices (including multicultural and ethical guidelines and trauma-informed practices) in the submitted written case conceptualization and treatment plan.

28. Impact of addiction on marriages, couples, and families (CACREP MCFC Standard: 5.F.2.h). Assessed via documentation in student learning outcomes, informal and formal case presentations in group supervision, formal site evaluation (midterm and final) reviews, and use of the current literature and evidence-based practices in the submitted written case conceptualization and treatment plan.

29. Impact of interpersonal violence on marriages, couples, and families (CACREP MCFC Standard: 5.F.2.i). Assessed via documentation in student learning outcomes, informal and formal case presentations in group supervision, formal site evaluation (midterm and final) reviews, and use of the current literature and evidence-based practices in the submitted written case conceptualization and treatment plan.

30. Impact of unemployment, under-employment, and changes in socioeconomic standing on marriages, couples, and families (CACREP MCFC Standard: 5.F.2.j). Assessed via documentation in student learning outcomes, informal and formal case presentations in group supervision, formal site evaluation (midterm and final) reviews, and use of the current literature and evidence-based practices in the submitted written case conceptualization and treatment plan.

31. Interactions of career, life, and gender roles on marriages, couples, and families (CACREP MCFC Standard: 5.F.2.k). Assessed via documentation in student learning outcomes, informal and formal case presentations in group supervision, formal site evaluation (midterm and final) reviews, and use of the current literature and evidence-based practices in the submitted written case conceptualization and treatment plan.

32. Physical, mental health, and psychopharmacological factors affecting marriages, couples, and families (CACREP MCFC Standard: 5.F.2.l). Assessed via documentation in student learning outcomes, informal and formal case presentations in group supervision, formal site evaluation (midterm and final) reviews, and use of the current literature and evidence-based practices in the submitted written case conceptualization and treatment plan.

33. Cultural factors relevant to marriage, couple, and family functioning, including the impact of immigration (CACREP MCFC Standard: 5.F.2.m). Assessed via documentation in student learning outcomes, informal and formal case presentations in group supervision,
formal site evaluation (midterm and final) reviews, and use of the current literature and evidence-based practices (including multicultural and ethical guidelines and trauma-informed practices) in the submitted written case conceptualization and treatment plan.

34. Ethical and legal considerations and family law issues unique to the practice of marriage, couple, and family counseling (CACREP MCFC Standard: 5.F.2.o). Assessed via informal and formal case presentations in group supervision, formal site evaluation (midterm and final) reviews, and written case conceptualization and treatment plan.

35. Record keeping, third party reimbursement, and other practice and management considerations in marriage, couple, and family counseling (CACREP MCFC Standard: 5.F.2.p). Assessed via informal and formal case presentations in group supervision, formal site evaluation (midterm and final) reviews, and written case conceptualization and treatment plan.

36. Assessment, evaluation, and case management for working with individuals, couples, and families from a systems perspective (CACREP MCFC Standard: 5.F.3.a). Assessed via documentation in student learning outcomes, informal and formal case presentations in group supervision, formal site evaluation (midterm and final) reviews, and written case conceptualization and treatment plan.

37. Fostering family wellness (CACREP MCFC Standard: 5.F.3.b). Assessed via documentation in student learning outcomes, informal and formal case presentations in group supervision, formal site evaluation (midterm and final) reviews, and use of the current literature and evidence-based practices in the submitted written case conceptualization and treatment plan.

38. Techniques and interventions of marriage, couple, and family counseling (CACREP MCFC Standard: 5.F.3.c). Assessed via documentation in student learning outcomes, informal and formal case presentations in group supervision, formal site evaluation (midterm and final) reviews, and use of the current literature and evidence-based practices (including multicultural and ethical guidelines and trauma-informed practices) in the submitted written case conceptualization and treatment plan.

39. Conceptualizing and implementing treatment, planning, and intervention strategies in marriage, couple, and family counseling (CACREP MCFC Standard: 5.F.3.d). Assessed via documentation in student learning outcomes, informal and formal case presentations in group supervision, formal site evaluation (midterm and final) reviews, and use of the current literature and evidence-based practices (including multicultural and ethical guidelines and trauma-informed practices) in the submitted written case conceptualization and treatment plan.

40. Strategies for interfacing with the legal system relevant to marriage, couple, and family counseling (CACREP MCFC Standard: 5.F.3.e). Assessed via informal and formal case presentations in group supervision, formal site evaluation (midterm and final) reviews, and written case conceptualization and treatment plan.
COURSE CONTENT: This course is designed for students to meet the CACREP 2016 Standards requirements for Marriage, Couples, and Family Counseling. Throughout this practicum experience, the student will receive individual or triadic supervision and group supervision on a weekly basis. Students will have the opportunity to learn and develop counseling skills for working with couples and families, initial diagnostic competencies for couples and families, client record keeping, and the formation of treatment plans for couples and families through a combination of lecture, demonstration, experiential activities, and guided practices.

This course will consist of individual and group supervision, personal examination, reflection and discussion, and provision and utilization of feedback. Content areas include but are not limited to the following topics of professional development in the context of couples and family counseling and systems-based models of therapeutic practice:

- Examination and discussion of therapeutic variables
- Legal and ethical aspects of providing counseling services
- Working with diverse clients/populations
- Disclosure documents and informed consent process, client rights, referral procedures, case planning and management
- Intake and termination procedures
- Use of counseling aids.
- Development of personal counseling approach.
- Case staffing and case presentations.
- Evaluating and determining effectiveness in counseling.

Method of Instruction: This is a clinical course involving lecture, supervision and group discussion, case studies and presentations. The class will meet for one hour per month. Attendance is required each month.

Evaluation: This course is graded on an “S/U” basis. An “S” grade indicates satisfactory demonstration of the course requirements and is the equivalent of a letter grade of either “A” or “B.” A grade of “U” indicates unsatisfactory demonstration of the course requirements and is the equivalent of a letter grade of “F.” Grades for this course are determined through the professional judgment of the academic supervisor, in conjunction with feedback from the on-site clinical supervisor who provides live co-therapy and on-site supervision for the student.

READINGS: Trainees are required to read the original work of master therapists alongside summaries of models from textbooks. Depending on model of choice other readings are required and are listed at the end of this syllabus. Trainees are required to complete a literature search related to the issues the family is facing; initiative for the literature search will come from the trainee early on in treatment. In addition, literature on research and evidence based interventions will be reviewed by trainees depending on their model of choice. Trainees will take initiative to find at least one article published within the last five
years on empirically supported treatment interventions of their chosen systemic model. You may visit with instructor ahead of time for assistance with the search.

### REQUIRED TEXTBOOKS:

### Recommended Readings:

---and/or---

Supplemental Materials: *It is the responsibility of the student to obtain these materials, available on the Internet, which relate to his/her major area of study.*

- **Colorado Board Rules and Frequently Asked Questions** of student's specialty area, e.g., marriage and family therapists, professional counselors, unlicensed psychotherapists, etc. Found on Internet at [http://www.dora.state.co.us/](http://www.dora.state.co.us/) On left margin of main web page, click “Division of Registrations.” In center of next page find, “SELECT A PROFESSION.” Select your professional area. Select “Board Rules,” or “Frequently Asked Questions.” Review both documents for class.

  (Available through the ACA webpage.)

---and/or---

- American School Counselor Association 2004 *Ethical Standards for School Counselors.*
  (Available through the ASCA webpage.)

---and---

- American Association of Marriage and Family Therapy 2001 *Code of Ethics.*
  (Available through the AAMFT webpage.)

---

**Course Requirements:**

**Proof of Insurance required prior to enrollment and attendance the first day of class.**

1. Regular Attendance with active and constructive participation in class discussion and supervision meetings. Complete assigned readings prior to class meetings and be prepared to discuss. Students are expected to be dependable, always show up on time, be open to different models, follow all ethical professional guidelines and be open to reviewing feedback and willing to make changes.

2. Complete a written case conceptualization and treatment plan according to the outline provided by the instructor (also found in the Student Learning Outcomes Procedures Manual, along with the corresponding grading rubric). Ensure that the identity of the client is not discernible in the written report!

3. Complete Student Learning Outcomes (i.e., formal self-observation assessments with a current APCE 601 client, professional development
questions, etc.). See CACREP-required professional development packet for instructions; posted on the UNC Professional Counseling webpage.

4. Provide informal case presentations to class during group supervision.
5. Provide feedback to fellow class members in group supervision
6. Arrange and participate in site evaluation reviews between student, faculty supervisor/instructor and on site supervisor each semester.
7. Follow all ACA ethical guidelines
8. Articulate a personal theoretical orientation and begin to demonstrate its application in sessions
9. Demonstrate appropriate counseling skills equivalent to a master’s level counselor (attending, empathy, respect, concreteness, genuineness, immediacy, and confrontation). Use skills and competencies such as:
   a. Opening and closing an interview
   b. Responding effectively to cognitive and affective content of clients’ communication
   c. Setting outcome goals with clients and planning change strategies with clients
   d. Employing a variety of counseling techniques, procedures, and resources as appropriate.
10. Accept and use supervisory feedback in a professional manner, to improve counseling effectiveness
11. Demonstrate awareness, knowledge and skills in counseling clients who are culturally different, including racial, ethnic, gender, sexual orientation or socioeconomic differences.
12. Use the Guidelines for Case Conceptualization form as a guide in preparing for supervision meetings. Once you begin sessions with clients and begin weekly supervision with your supervisor, come prepared to review. It is suggested that the following five questions be used to prepare for supervision:
   a. What did I do well (i.e. good listening) by using what specific techniques (i.e. reflection of feeling)?
   b. What would I like to have done differently (i.e. not talk as much)
   c. What technique(s) should I learn or improve on (i.e. better use of silence).
   d. What do I want to do in the next session?
   e. What do I need/want from my supervisor and this session?

**Supervision:** Some of the challenges you will face as you engage in supervision are achieving and maintaining an advanced degree of counseling knowledge and skills necessary to meet the needs of families and to successfully meet the requirements of this course, developing an adequate knowledge and comfort with your preferred counseling style and theoretical orientation. Potential conflict between you and your supervisor may arise as you work together to improve your skills.

When these challenges arise, the appropriate course of action is for you to bring these issues to the direct attention of the supervisor. This allows her the opportunity to work out a plan to deal with them. If you have a problem with the supervision of your work and talk with others but not your supervisor you are participating in gossip—not problem solving.
However, if you bring your concerns to the supervisor you will be practicing good counseling skills and it will give you the opportunity to discuss your concerns and hopefully reach a resolution.

Additionally, it is not uncommon for practicum students to encounter their own emotional difficulties as they participate in clinical experiential and group supervision experiences, and as they begin to address the concerns of others. If your counseling needs exceed what is traditionally appropriate in the supervision experience, you will be encouraged to seek counseling services.

**Academic Conduct:** Cheating on assignments or examinations, submitting work of other students as your own, or plagiarism in any form will result in penalties ranging from an "F" on an assignment to expulsion from the University.

**Professional Conduct:** Students are expected to adhere to the appropriate code of ethics for their particular program. Any behavior which is deemed unethical will be grounds for dismissal from the program.

**APCE Professional Membership Policy:** As a graduate student in a professional training program, the faculty of the Division strongly encourage you to become a member of your professional association, e.g., ACA, APA, AAMFT, ACES, ASCA, NASP.

**APCE Professional Counseling Policy:** As of March 4, 1996, all incoming Ph.D. in Counselor Education and M.A. students are required to join ACA during their first semester in the program; future registration will be put on hold until membership is acquired. At the beginning of the student’s first semester, a copy of the student’s ACA membership card is to be given to the APCE Administrative Assistant for entry in the Division data base.

**Professional Liability Insurance Policy:** All students are required to show proof of having professional liability insurance before being allowed to take an internship.

**Disability Resources:** It is the policy and practice of the University of Northern Colorado to create inclusive learning environments. If there are aspects of the instruction or design of this course that present barriers to your inclusion or to an accurate assessment of your achievement (e.g. time-limited exams, inaccessible web content, use of videos without captions), please communicate this with your professor and contact Disability Support Services (DSS) to request accommodations. Office: (970) 351-2289, Michener Library L-80. Students can learn more about the accommodation process at [http://www.unco.edu/disability-support-services/](http://www.unco.edu/disability-support-services/)

**Inclusivity Statement:** The College of Education and Behavioral Sciences (CEBS) supports an inclusive learning environment where diversity and individual differences are understood, respected, appreciated, and recognized as a source of strength. We expect that students, faculty, administrators and staff within CEBS will respect differences and
demonstrate diligence in understanding how other peoples’ perspectives, behaviors, and world views may be different from their own.

**Sexual Misconduct/Title IX Statement**: The University of Northern Colorado prohibits and will not tolerate sexual misconduct or gender-based discrimination of any kind. UNC is legally obligated to investigate sexual misconduct (including, but not limited to sexual assault, sexual harassment, stalking, and intimate partner violence). If you disclose an incident of sexual misconduct to a faculty member, they have an obligation to report it to UNC’s Title IX Coordinator. “Disclosure” may include communication in-person, via email/phone/text message, or through in/out of class assignments. If you wish to speak confidentially about an incident of sexual misconduct, please contact the UNC Counseling Center (970-351-2496) or the Assault Survivors Advocacy Program (970-351-4040). If you would like to learn more about sexual misconduct or report an incident, please visit: www.unco.edu/sexualmisconduct.
Name of Supervisee: ________________________________ Date: ____________________

Name of Supervisor: __________________________ Site: __________________________

Address: ____________________________________________

Please describe your style of supervision with this supervisee.

_____ Observed supervisee directly via one way mirror or video circuit
_____ Listened to or watched tapes of supervisee counseling
_____ Read session notes
_____ Discussed cases with supervisee
_____ Group supervision (6 supervisees or less)
_____ Other (please describe)

What number of overall hours did the supervisee spend with:

_____ Direct client activities (counseling)
_____ Direct client contact with couples or families
_____ Indirect client activities (i.e. case conferences, staff meetings, administrative duties, etc.)

Logistic aspects:
Supervisee is on time for sessions and supervision__________________________

Case notes ready on time _______
Case notes well written______________

Treatment planning notes completed and modified with supervision__________

Systemic models used: ____________

-1- Student is in need of further training and/or requires additional growth, maturation, and change in order to be effective in the various skill areas; trainee should not be allowed to function independently.

-2- Competence is below average but, with further supervision and experience, is expected to develop satisfactorily; independent functioning is not recommended and close supervision is required.

-3- Competence is at least at the minimal level necessary for functioning with moderate supervision required.
-4- Competence is above average, trainee can function independently with periodic supervision.

-5- Competence is well developed and trainee can function independently with little or no supervision required.

-N- Insufficient date to rate at this time.

- The faculty has approved this form for evaluation in Family practica for both MA and doctoral students. It is a CACREP and APA requirement that a copy of this evaluation is to be included in the student’s file upon course completion.
- This form was originally developed for use in the internship manual for MA students in Community Counseling: Couples and Family Therapy Emphasis and for use in Family Practicum with MA and Doctoral students by Lia Softas-Nall, Professor of Counseling Psychology and adopted by the APCE faculty. It appears as a published contribution in Hovestadt, C. et al (2002). *Practice management forms: Tools for the business of therapy.* Washington, DC: American Association for Marriage and Family Therapy.
Professional Counseling Programs

SELF-SUPERVISION FORMS AND
CASE CONCEPTUALIZATION

(To Be Completed During Practicum I, Practicum II, Family Practicum, and Internship)

Please follow the outlines provided in the SLO Manual.

Tips for the Oral Presentation:

- **Begin with the end in mind,** or in other words, have a purpose for what you are sharing. The central question to be answered is: What do you want from the group with which you are sharing this information? (Feedback, treatment planning, resources, specific questions, ethical concerns, etc. etc.)

- **Share only what is relevant,** Too often too much irrelevant information is shared, so report only that information which is germane. Make a list of important details, use professional language [not referring to client by their diagnosis, be clear, & specific, describe behaviors without value judgments].

- **Be Flexible & Mindful of Time,** Others may want to stop you and ask a question or seek clarification. A skilled presenter can balance some questions with his or her presentation. If someone asks a question that you plan to address later, simply and professionally, tell them and then move on. You are responsible for managing the time.

- **Interaction and Questions,** After you present, there most likely will be a period of discussion and further clarification. Be sure your question(s) or concerns were addressed. You may wish to take notes during the discussion so you can remember later. Help to keep the discussion focused.

- **Seek to Get Your Question Answered**
  If the group process has not answered your question, ask the group directly again. This is a good place to take notes on their suggestions, strategies, and input. As always, take any suggestions from the internship group or consultation group back to your site supervisor BEFORE attempting or intervening in any way with your clients.

  Thank the group for their time and feedback.
The Privacy Rule allows a covered entity to de-identify data by removing all 18 elements that could be used to identify the individual or the individual’s relatives, employers, or household members; these elements are enumerated in the Privacy Rule. The covered entity also must have no actual knowledge that the remaining information could be used alone or in combination with other information to identify the individual who is the subject of the information. Under this method, the identifiers that must be removed are the following:

1. Names.
2. All geographic subdivisions smaller than a state, including street address, city, county, precinct, ZIP Code, and their equivalent geographical codes, except for the initial three digits of a ZIP Code if, according to the current publicly available data from the Bureau of the Census:
   a. The geographic unit formed by combining all ZIP Codes with the same three initial digits contains more than 20,000 people.
   b. The initial three digits of a ZIP Code for all such geographic units containing 20,000 or fewer people are changed to 000.
3. All elements of dates (except year) for dates directly related to an individual, including birth date, admission date, discharge date, date of death; and all ages over 89 and all elements of dates (including year) indicative of such age, except that such ages and elements may be aggregated into a single category of age 90 or older.
4. Telephone numbers.
5. Facsimile numbers.
6. Electronic mail addresses.
7. Social security numbers.
8. Medical record numbers.
9. Health plan beneficiary numbers.
10. Account numbers.
12. Vehicle identifiers and serial numbers, including license plate numbers.
15. Internet protocol (IP) address numbers.
16. Biometric identifiers, including fingerprints and voiceprints.
17. Full-face photographic images and any comparable images.
18. Any other unique identifying number, characteristic, or code, unless otherwise permitted by the Privacy Rule for re-identification.
## Case Conceptualization & Treatment Plan Scoring Rubric - Clinical Counseling Version
(To Be Completed During Practicum I, Practicum II, Family Practicum, and Internship)
(Adapted from Gehart, 2009)

### Rating Scale:
- **5 = Exceptional** (skills and understanding significantly beyond counselor developmental level)
- **4 = Outstanding** (strong mastery of skills and thorough understanding of concepts)
- **3 = Mastered Basic Skills** (understanding of skills/competence evident)
- **2 = Developing** (minor conceptual errors; in process of developing)
- **1 = Deficits** (deficits in knowledge/skills; significant remediation needed)
