Course Content:

The program requires completion of a supervised internship in the student's designated program area of 600 clock hours, begun after successful completion of the practicum. The internship is intended to reflect the comprehensive work experience of a professional counselor appropriate to the designated program area. The faculty member will provide an average minimum of 1½ hours of group supervision per week to internship students. The supervising faculty member will also provide evaluations of the student's counseling performance throughout the internship, including documentation of a formal evaluation in consultation with the site supervisor at the end of the internship experience.

Method of Instruction:

This course will consist primarily of group supervision, however, individual supervision may be provided as needed. This is a clinical course involving personal examination, reflection, lecture, role plays, group discussion of site activities, formal and informal case presentations, and student-led class discussions. This class will include facilitated group discussions around experiences, expectations, challenges, shared information, responses to supervision, site supervisors, ethical issues, and The ASCA National Model. Information related to the requirements of the University of Northern Colorado school counseling internship and state licensure requirements will be provided.

Evaluation:

This course is graded on an "S/U" basis. An "S" will be awarded to the student following the successful completion of six (6) semester hours of internship in school counseling (APCE 614) in at least two school levels and the submission of all relevant documents and forms.

A Satisfactory/Unsatisfactory grade is based on the following:

1. Active and engaged participation in supervision
2. On time and prepared for all supervision sessions
3. Progress toward personal and professional goals
4. Demonstration of developmentally appropriate case conceptualization skills, school counseling skills, and self-awareness
5. Engagement in school counseling activities outlined in your internship agreement
6. Quality of case presentations
7. Depth and breadth of professional self-analysis and application of information to improve case conceptualization, client-counselor interaction, and intervention development
8. Feedback from site supervisor
9. Professionalism
10. Completion of all assignments, required hours, and related paperwork

A Satisfactory grade indicates that students have fulfilled all requirements of the internship as listed above as well as adherence to all policies and requirements of the site. Acceptable completion is defined at the discretion of the instructor.

An Incomplete may be given in usual circumstances and according to University policy. Incompletes are **usually due to occurrences with the site**, not with the student, and may include (but is not limited to) lack of client availability for direct contact hours. Incompletes will be given at the discretion of the

instructor, if it is determined that the student has done everything within her or his power to fulfill all requirements of the internship.

Course Requirements/Assignments:

1. **Group attendance is mandatory and essential**, not only to your own development but also to the development of your peers.
2. Active participation in ALL class discussions and supervision meetings. This will require you to complete assigned readings prior to class meetings and be prepared to facilitate and respond to discussions.
3. Read the Internship Handbook and adhere to all policies and paperwork requirements outlined in this handbook.
4. **Maintain liability insurance for the duration of the internship and related activities.** Students should provide a copy of their liability insurance to their university supervisor prior to their first day on-site and provide an updated copy of the renewal policy if the insurance expires during the internship period.
5. Complete a formal written case conceptualization and treatment plan.
 - See formal outline and rubric in the student SLO Manual
6. Conduct both formal and informal case presentations during group supervision.
 - See outline for written and oral presentation in Appendix A and Appendix B.
7. Share best practices and resources with the class in the **Internship Tool Kit** folder provided by your instructor regarding resources and interventions that you have used or would like to apply to your practice. There are two documents in this folder for you to contribute to:
 - **Resources:** Share with the class a minimum of **two resources** that you have found helpful in your work. Consider community organizations, websites, partnership, professional development, and other resources that you or your site supervisors have found helpful. Provide a brief description. How are the resources used?
 - **School Counseling Delivery:** Share with the class a minimum of **two interventions** (direct student services) that you have used or could use as part of the delivery component of the ASCA National Model (e.g., small group activities, classroom lessons, individual counseling). Please provide a detailed description so others can incorporate the intervention in their own work. These may include worksheets, curriculums, lesson plans, mindfulness activities, or other approaches. Since data-driven school counseling is an important practice, reflect on how this intervention could be evaluated and/or if it is evidenced based. Please add your contribution to the toolkit by the time you sign up to present your tools to the class.
***A link to the Toolkit will be provided by your instructor*
8. **Toolkit Presentation:** Lead a short discussion (~10 minutes) to discuss and showcase the resources and interventions you added to the tool kit. Consider ways to showcase your resources and interventions to demonstrate the utility of these tools in practice.
**A sign up sheet will be distributed to identify a date you will present in class.*
9. Articulate a personal theoretical orientation and begin to demonstrate its application in sessions and in case presentations.
10. Actively engage in and regularly report professional self-care activities.

11. Complete all requisite Student Learning Outcomes (i.e., formal self-supervision forms with a current APCE 614 client, formal case conceptualization with a current APCE 614 client, etc.). This includes **three self-supervision forms per semester** of internship that will be due no later than our last day of class. See Appendix C for self-supervision form and rubric obtained from the SLO Manual.
12. Provide both formal and informal feedback to fellow class members during group supervision.
13. Arrange and participate in a minimum of one virtual site evaluation review between student, faculty supervisor/instructor, and on site supervisor each semester.
14. Demonstrate appropriate counseling skills (and ongoing improvement) equivalent to a master's level school counselor.
15. Demonstrate an openness to and willingness to incorporate supervisory feedback in a professional manner, to improve counseling effectiveness.
16. Demonstrate awareness, knowledge, and skills in counseling clients who are culturally different, including but not limited to race, gender, sexual orientation, socioeconomic differences, etc.
17. Follow all ACA/ASCA ethical guidelines.

General Expectations:

This course meets **once a month for 6 hours**, and due to the nature of this course, **you are expected to be at all scheduled class sessions**. While some events are unavoidable, it is imperative that you attend all class sessions. Therefore, requests to leave early or miss a session are discouraged. Class participation includes being present for all group meetings, providing consistent and constructive feedback to peers, being prepared for supervision, integrating supervisory feedback, and clearly demonstrating commitment to personal and professional development. Additionally, you will be expected to read all assigned material and complete course assignments by the dates indicated without exception. If a student is unable to attend the scheduled group supervision listed on this syllabus, they will be required to attend an equivalent number of hours of group supervision on the nearest available campus. The student will be responsible for organizing their additional group supervision attendance with the instructor of record for the appropriate campus.

Working With a Site:

An appropriate site location is one where the student can become familiar with a variety of professional activities in addition to engaging in direct service work. The site provides the opportunity for the student to gain supervised experience using a variety of professional resources such as assessment instruments, computers, print and non-print media, and professional literature and research. Internship students should arrange their on-site schedules to coincide with the work schedule at their sites. With regard to university breaks, students should adhere to the schedule at their site.

APCE Professional Counseling Policy:

As of March 4, 1996, all incoming Ph.D. in Counselor Education and M.A. students are required to join ACA during their first semester in the program; future registration will be put on hold until membership is acquired. At the beginning of the student's first semester, a copy of the student's ACA membership card is to be given to the APCE Administrative Assistant for entry in the Division data base.

Professional Liability Insurance:

All students are required to show proof of having professional liability insurance before being allowed to start an internship.

Academic Conduct:

Cheating on examinations, submitting work of other students as your own, or plagiarism in any form will result in penalties ranging from an "F" on an assignment to expulsion from the University.

Professional Conduct:

Students are expected to adhere to the ACA/ASCA code of ethics. Any behavior that is deemed unethical will be grounds for dismissal from the program. All information shared in a counseling course is confidential; therefore, disclosure of any kind including audio taping of the course is a violation of the ACA code of ethics.

Disability Resources

It is the policy and practice of the University of Northern Colorado to create inclusive learning environments. If there are aspects of the instruction or design of this course that present barriers to students' inclusion or to accurate assessments of students' achievement (e.g. inaccessible web content, use of videos without captions), students should communicate about these aspects with their instructor(s).

Additionally, if you have a temporary health condition or a permanent disability that requires accommodations, contact the Disability Resource Center (DRC) as soon as possible. DRC facilitates the interactive process that establishes reasonable accommodations.

Office: (970) 351-2289, Michener Library L-80.

Title IX

The University of Northern Colorado is committed to providing a safe learning environment for all students that is free of all forms of discrimination and sexual harassment, including sexual assault, domestic violence, dating violence, and stalking. Students who have experienced (or who know someone who has experienced) any of these incidents should know that they are not alone. UNC has staff members trained to support students to navigate campus life, to access health and counseling services, to provide academic and housing accommodations, to help with legal protective orders, and more.

Please be aware all UNC instructors and most staff members are required to report their awareness of sexual violence to the Office of Institutional Equity and Compliance (OIEC). This means that if students tell an instructor about a situation involving sexual harassment, sexual assault, dating violence, domestic violence, or stalking, the instructor must share that information with the Title IX Coordinator, Larry Loften. Larry or a trained staff member in OIEC will contact the reporting students to let them know about accommodations and support services at UNC as well as their options to pursue a process to hold accountable the person who caused the harm to them. Students who have experienced these situations are not required to speak with OIEC staff regarding the incident. Students' participation in OIEC processes are entirely voluntary.

If students do not want the Title IX Coordinator notified, instead of disclosing this information to the instructor, students can speak confidentially with the following people on campus and in the community. They can connect you with support services and help explore options now, or in the future.
