PROFESSIONAL CONDUCT/ETHICS: All students are required to know and adhere to their respective professional association (e.g., ACA, APA) code of ethics. Ethical violations may result in failure of the course and possibly dismissal from the program.

DISABILITY RESOURCES: It is the policy and practice of the University of Northern Colorado to create inclusive learning environments. If there are aspects of the instruction or design of this course that present barriers to students' inclusion or to accurate assessments of students' achievement (e.g., inaccessible web content, use of videos without captions), students should communicate about these aspects with their instructor(s).

Additionally, if you have a temporary health condition or a permanent disability that requires accommodations, contact the Disability Resource Center (DRC) as soon as possible. DRC facilitates the interactive process that establishes reasonable accommodations.

Office: (970) 351-2289, Michener Library L-80.

Students can learn more here: www.unco.edu/disability-resource-center

ACADEMIC INTEGRITY: Students are expected to practice academic honesty in every aspect of this course. Students who engage in academic misconduct are subject to grading consequences with regard to this course and/or university disciplinary procedures through the Student Conduct and Accountability. More information about the academic misconduct process can be found in UNC's Student Code of Conduct (BEAR Code).

TITLE IX: The University of Northern Colorado is committed to providing a safe learning environment for all students that is free of all forms of discrimination and sexual harassment, including sexual assault, domestic violence, dating violence, and stalking. Students who have experienced (or who know someone who has experienced) any of these incidents should know that they are not alone. UNC has staff members trained to support students to navigate campus life, to access health and counseling services, to provide academic and housing accommodations, to help with legal protective orders, and more.

Please be aware all UNC instructors and most staff members are required to report their awareness of sexual violence to the Office of Institutional Equity and Compliance (OIEC). This means that if students tell an instructor

about a situation involving sexual harassment, sexual assault, dating violence, domestic violence, or stalking, the instructor must share that information with the Title IX Coordinator, Larry Loftin. Larry or a trained staff member in OIEC will contact the reporting students to let them know about accommodations and support services at UNC as well as their options to pursue a process to hold accountable the person who caused the harm to them. Students who have experienced these situations are not required to speak with OIEC staff regarding the incident. Students' participation in OIEC processes are entirely voluntary.

If students do not want the Title IX Coordinator notified, instead of disclosing this information to the instructor, students can speak confidentially with the following people on campus and in the community. They can connect you with support services and help explore options now, or in the future.

Students should review the Coronavirus website for the current academic term for the most up to date guidance. COURSE REQUIREMENTS/ASSIGNMENTS

NOTE: Instructor reserves the right to modify based on need/time allowed.

Readings and Assignments

Students are expected to have completed the assigned readings prior to coming to class. All assignments are due at the beginning of class as scheduled in the course outline. Not reading the material and/or late assignments will significantly lower your grade (i.e., **2 points per day** is deducted for turning in work late).

Class Attendance/Participation (30 points):

Please attend all classes in their entirety and actively participate in discussions and activities. If you do not think you can attend the class during meeting times, please take it at another time. Lack of participation or tardiness will result in a loss of 2-3 points per class meeting and absence may result in a course grade reduction of at least one letter grade (see grading policy below). You may earn up to 2 points per Friday class, and 3 for each Saturday and Sunday class, depending on your level of participation.

Electronic Devices: All cell phones and pagers are to be turned off during class time. Do not text during class. If you have a particular need (medical call or children at home) please notify the instructor prior to the beginning of class so that accommodations can be made. Computers are welcomed as long as students use them for note taking, not surfing the web or e-mailing. If your device interrupts class, you will be asked to leave class to attend to it. The first time will be a warning and you will be allowed to re-enter the class; however, if another interruption occurs you will not be allowed to re-enter the class that day and will lose points for attendance and participation. Due to numerous student complaints, any student found misusing his or her computer will be asked to shut it down.

“Burning Questions” Mini Paper (5 points; *Due by Friday, July 5th Midnight [1 week before class] through email: lu.tian@unco.edu*)

Please respond to the following questions in 2 or less pages (no cover page needed; type your name at the top of page 1). Be prepared to discuss it on the first day of class. Please label responses using the alphabet below.

- a) What is your specific program concentration/track (e.g., MFT, School, and CES)?
- b) Describe your background or training in working with trauma and/or crisis intervention.
- c) What are you looking forward to regarding this course?
- d) What concerns (if any) do you have about taking this course?
- e) What are three (3) burning questions that you have related to trauma and crisis intervention?
- f) Elaborate on the specific outcomes you envision for yourself following this class.
- g) What is one “fun” or interesting thing about yourself that you wouldn’t mind sharing?
- h) Is there anything else that you would like for me to know about you, either personally or professionally?

Trauma Reading/Watching Response Paper (10 points; *Due by Friday, April 12th 4pm through Canvas [Canvas will open to students on July 12th]*)

Please select a *contemporary* novel, autobiography, or film of your choice relevant to the course content and your professional interests in this field. **For this assignment, put yourself in the place of the main character (or one of the main characters) who has experienced the traumatic events and write from the FIRST-PERSON perspective.**

Consider *some* of the following questions, but your paper does not require that you answer each one. Write about your responses to the book, while just keeping these questions in mind:

- Given your stressful life experiences (as the character) what challenges might you face in personal, family, peer, work or school relationships?

- What resources and strengths do you have as this character?
- How would these experiences affect your beliefs about self, others and the world?
- What kinds of signs or symptoms associated with trauma would be evident to others?
- What symptoms might be less obvious to others?
- Specifically, and generally how is your life influenced by the trauma?

The length of the paper is 3 pages. Importantly, these are **NOT book/movie reports**. Instead, these should be your responses to reading the material/watching the film along with identifying and discussing parts from the readings/film (provide page numbers where applicable) that you found particularly helpful for understanding and treating trauma. Instead of directly describing and discussing things you learned, remember you should describe and discuss your learning from first-person perspective. For example, instead of saying that you learned flashbacks and its impacts on main character's life, you want to describe symptoms of flashbacks as you are the main character who experience them and how these symptoms affect your life.

Note: you will be asked to reflect on the main character as we explore topics throughout this class. So, be prepared for small group discussions.

Role-play and Report (20 points)

You will find another student in class to be your role-play partner. After finding your partner, please discuss with your partner whether you have a case vignette you want to use for role-play or you want to be assigned with a case vignette. If you and your partner choose to be assigned with a partner, please select your top four preferences of trauma areas for the following eight areas of trauma: (1) Child Abuse/Neglect, (2) Intimate Partner Violence, (3) Racial/Intergenerational Trauma, (4) War/Veterans, (5) Natural Disasters, (6) Immigrants/Refugees, (7) Stranger Physical Assault, (8) Rape/Sexual Assault. **Please submit the following information by Friday, Friday, July 5th Midnight [1 week before class] through email: lu.tian@unco.edu:**

- You and your partner's name
- If you choose to use your own case vignette, please attach your case vignette
- If you choose to be assigned with a case vignette, please send me your top four preferences

Throughout the whole class, you will use this case vignette to complete the following multiple assignments.

In-class Role-plays

You will pair up with another student in class and complete four role-plays with this peer throughout the class. The four role-play topics include: (1) being aware of and dealing with personal reactions, (2) providing individualized psychoeducation, (3) evaluating client's trauma history, and (4) providing treatment.

During the role-play, you and your peer will alternate the roles of therapist and client. For example, when you play the therapist's role, your peer will role-play the client in case vignette and vice versa. Each role-play will last 25 minutes for one student, including 15-20 minutes actual role-play and 5-10 minutes reflection and feedback time. Then, students will switch their roles. Due to the limited time that you could use in each role-play, it is highly recommended that you choose **ONE FOCUS AREA** to practice for each topic and prepare your role-play ahead of time. **See detailed guidelines on P. 15.**

Examples of focus areas in each topic:

Being aware of and dealing with personal reactions	<ul style="list-style-type: none"> • Practice recognizing silencing responses in session; • Practice recognizing emotional responses to client's story in session; • Practice responding to client effectively while managing personal reactions;
Providing	<ul style="list-style-type: none"> • Practice explaining fight-flight-freeze mode and human's physical reactions;

psycho-education	<ul style="list-style-type: none"> • Practice explaining functions of PTSD symptom in a positive light; • Practice explaining normal grieving process
Evaluating client's trauma history	<ul style="list-style-type: none"> • Practice introducing a formal trauma history assessment and address client's questions; • Practice evaluating client's PTSD symptoms; • Practice evaluating child's trauma experiences while using play therapy;
Providing Treatment	<ul style="list-style-type: none"> • Practice introducing the safe space strategy and practicing it with client; • Practice processing client's trauma memory while monitoring client's emotions; • Practice teaching a bodily-based technique and practicing it with client;

*Role-play Report (5 points each; **See Due Days below**)*

Role-play Report Due Days

- Being aware of personal reactions: **July 21st midnight through Canvas**
- Providing psychoeducation: **July 21st midnight through Canvas**
- Evaluating trauma: **July 21st midnight through Canvas**
- Providing treatment: **July 29th midnight through email: lu.tian@unco.edu**

After in-class role-play, you will write a 1-2 pages double-spaced **REFLECTION PAPER (NOT a case report)** for the in-class role-play. The paper should contain:

- The goal you set up for the role play
- Things you did well and things you did not do well
- How would you want to change if given another opportunity?
- Questions you have regarding the role-play (optional)

Self-care Assignment (10 points)

*Self-care Plan (2 points; **in-class activity**)*

You will develop a self-care plan during one of our class sessions (No need to think about this assignment before class). The self-care plan will contain signals of yourself when you are in distress and a list of activities that you could do to de-stress. You will ask to consider time and location required for each activity and make sure to include activities that need different lengths of time and could be done in different settings. See P. 11 the self-care plan template.

*Self-care Journal (8 points; **Due by Friday, July 26th midnight through Canvas**)*

During the weeks between the two weekends when class meet, you will keep a journal that records your emotional responses to class readings, class content and experiences, as well as how you carry out self-care plan to manage your responses. You will modify your self-care plan as you gain more understandings of what work for you and what does not. In the end, you will submit a self-care journal, which contains:

- a) A modified version of self-care plan (make sure you mark what has been changed) (1 points)
- b) A log of at least **8 entries** of emotional reactions toward class readings, content, experiences, and assignments as well as self-care activities that you did (5 points)
- c) 1-2 paragraphs of new awareness and learning about self-care you gained throughout this semester (2 points)

See P. 12 the self-care journal template.

Role-play Guideline

Note. The most significant benefit of role-play is that you can freely make mistakes and correct them without worrying about your clients. Please consider the following suggestions when conducting your in-class role-plays; they will help you use your time productively.

1. Set up your goals.
 - a. Take the time to think about what you want to learn from a role-play; having specific goals will help you gain the most from those in-class role-plays.
 - b. Your goals for a role-play should neither be too easy nor too difficult; choose a goal that, with efforts, you should be able to achieve, even if not perfectly.
 - c. For example, if you are typically adept at building relationships with clients, opt for a more challenging goal, such as establishing rapport with a client who is reluctant to talk or slightly hostile.
2. Set up a scenario.
 - a. As it is a role-play, there's no need to start from the beginning; instead, communicate to your partner a specific scenario you would like to explore.
 - b. For example, you could select a scenario in which rapport is established over multiple sessions, and client is prepared for a specific treatment; then, you can practice delivering the treatment.
3. Train your partner to assist you.
 - a. Have your partner familiarize the client in advance.
 - b. Tell your partner what you need specifically.
 - i. For example, you could ask your partner to be more resistant, be more open with the story, be silent during the session, or ask tough questions etc.
4. Allow mistakes and remedies during role-play.
 - a. The goal for role-play is not to deliver your best performance; in fact, you should attempt things that you are unfamiliar with, have never tried before, or are afraid of.
 - b. Allow yourself to stumble on words and repeat what you want to say.
 - c. Feel free to tell your partner that you want to start over or simply stop and ask advices/suggestions from your partner or the instructor.
5. Process after role-play.
 - a. It is always more beneficial if you reflect on your performance after role-play.
 - b. Reflect on things that are easy for you and things that are difficult for you.
 - c. Reflect on things you did well and things you want to improve.
 - d. Ask feedback from your partner, you might learn something that you did not notice and/or something new.
